

WHETHER DEMAND IS AT ITS HIGHEST OR TURNAROUND TIME IS AT ITS LOWEST,

the need for high precision aerospace, oil and gas, and medical manufacturing shouldn't keep you from meeting production goals.

Count on Pointe Precision to provide you with extra production when demand exceeds capacity.

Two Mori Seiki NZS2000 T3Y3 multi-task machines - and the expertise to use them to their full potential - allow Pointe Precision to mass produce complex parts with speed, precision, and uncompromising quality.

- 30% faster machining time compared to other conventional machines
- Synchronized machining

POINTE PRECISION CAN HELP YOU KEEP PART PRODUCTION ON TRACK

A CNC machine shop with high level milling, turning, grinding, heat treating, and CMM inspection capabilities, Pointe Precision has been serving the most demanding manufacturers in the nation with precision parts for more than a decade.

POINTE PRECISION Inc.

Manufacturing Solutions for Today's Critical Applications
